ARO SERIES

Las profundas formas cóncavas de los diferentes elementos de la colección ARO, que recuerdan a los boles de porcelana utilizados en la ceremonia del té japonés.

Bajo esta premisa, estudi{H}ac redefine una tradición ancestral con un diseño moderno al que da forma un material tan innovador como el compacto mineral KRION® Solid a base de líneas sutiles, naturales y limpias, concretadas en figuras semicirculares de tacto agradable.

The deep concave shapes of the different elements of the ARO collection are reminiscent of the porcelain bowls used in this ritual. Under this premise, estudi{H}ac redefines an ancestral tradition with a modern design which shapes the innovative material of the compact mineral KRION® Solid, based on subtle, natural and clean lines in semi-circular forms which are warm to the touch.

Les profondes formes concaves des différents éléments de la collection ARO, qui rappellent les bols en porcelaine utilisés à l'occasion de ce rite. C'est dans cet esprit que estudi{H}ac revisite une tradition ancestrale avec un design moderne auquel donne vie un matériau aussi innovant que le minéral compact KRION® Solid sur la base de lignes subtiles, naturelles et pures s'exprimant sous forme de figures semi-circulaires agréables au toucher.

ONE SERIES

La serie ONE, formada por diversas encimeras y lavabos, destaca por sus líneas rectas y por el predominio de las formas cuadradas. Su diseño minimalista se ve aumentado con la posibilidad de incorporar una estructura metálica negra a las encimera o un mueble en tono vulcano grey o blanco que destaca por su amplio cajón en cierre soft close y por su amplio uñero metálico. Elaborada con la tecnología KRION Shell®, la serie dispone de un copete perimetral prácticamente imperceptible que favorece la higiene y evita las salpicaduras, facilitando su limpieza y mantenimiento. Los modelos ONE CUSTOM de la serie pueden cortarse a fin de ajustarse a todo tipo de espacio, incluso en zonas difíciles donde hay algún pilar o paredes con diferente ángulo, siendo así una serie adaptable y muy versátil.

The ONE series is made up of a selection of countertops and washbasins with a straight-lined design and predominance of square shapes. Their minimalist appearance can be further enhanced by adding a black metal frame to the countertop or a bathroom unit in vulcan grey or white with a large soft-close drawer and big metal draw pull. Made using KRION Shell® technology, the series has an almost imperceptible upstand around it to avoid splashes and to improve on hygiene, ensuring easier cleaning and care. The models in the versatile, easily adaptable ONE CUSTOM series can be cut to size to suit varying spaces, including ones with a column or places with walls at unusual angles.

La série ONE, formée par divers plans vasque et lavabos, se distingue par ses lignes droites et par la prédominance des formes carrées. Son design minimaliste se voit accentué par la possibilité d'incorporer une structure métallique noire aux plans vasque ou un meuble dans les tons vulcano grey ou blanc qui se détache par son ample tiroir avec fermeture soft close et grande rainure d'ouverture métallique. Élaborée avec la technologie KRION Shell®, la série dispose d'un rebord périphérique pratiquement imperceptible qui favorise l'hygiène et évite les éclaboussures, facilitant ainsi son nettoyage et son entretien. Les modèles ONE CUSTOM de la série peuvent se couper afin de les ajuster à toute sorte d'espaces, y compris dans des zones difficiles présentant un pilier ou des murs avec un angle différent, ce qui en fait une série adaptable et très versatile.
